PRODUCT OVERVIEW

Union products are designed to meet a range of performance requirements for both residential and commercial applications. Our Galvalume® substrate features a 20-year warranty and painted panels include an industry-leading 45-year finish warranty with no coastal set-back.

Slimline®

The Slimline panel is a premium standing seam profile that is designed for distinctive, high-end looks. Very popular in residential and commercial applications, this panel installs without clips and snaps securely together with completely concealed fasteners. Our Slimline panel features 1" ribs.

Gauge Options: 26, 24
Finish Options: Unpainted Galvalume,
45yr. SMP, PVDF

SL150

SL150 is a premium standing seam profile that features 1.5" ribs and is very popular in the commercial and high-end residential applications. SL150 is installed with clips that fasten to the roof deck allowing for a "floating" installation. Once secured, the panel ribs snap securely together with completely concealed fasteners.

Gauge Options: 26, 24
Finish Options: Unpainted Galvalume,
45yr. SMP, PVDF

MasterRib®

An industry leader in strength and durability, this popular and versatile panel is used in a wide range of applications including residential, commercial, and post-frame buildings. Designed with extra-wide ribs and a large anti-siphoning channel, MasterRib provides strength and leak resistance under extreme wind and rain loads.

Gauge Options: 29, 26
Finish Options: Unpainted Galvanized,
Unpainted Galvalume, 45yr. SMP

5V

For generations, 5V roofing panels have been used on farm buildings and other rural projects. Today, this timeless design is being increasingly used for residential applications. Designed with an enhanced "U" over "V" profile to provide maximum leak resistance.

Gauge Options: Econo, 29, 26
Finish Options: Unpainted Galvanized,
Unpainted Galvalume, 45yr. SMP

Corrugated

Corrugated panels are the original metal roofing and siding panels. Today, usage of these panels has expanded beyond their rural heritage, adding a traditional look to many restaurants, retail establishments, and other commercial buildings.

Gauge Options: Econo, 29, 26
Finish Options: Unpainted Galvanized,
Unpainted Galvalume, 45yr. SMP

PBR and IR Panel

Designed for industrial, commercial, and steel-frame building applications, the "R" family of panels has the strength to perform on roof pitches as low as 1:12 and on spans up to 5 feet. IR panels are designed for sidewall applications while the PBR panel has an added purlin bearing leg to provide better support.

Gauge Options: 26
Finish Options: Unpainted Galvalume,
45yr. SMP

PRODUCT OVERVIEW

SL-175

SL175 is a snap lock standing seam panel with 1.75" high ribs that can be used for architectural applications. The panel is secured with concealed clips and ribs that lock securely together. SL175 can be specified as an accent feature or a total roof system for schools, shopping centers, banks, hotels, offices, and a variety of other applications.

Gauge Options: 24
Finish Options: Unpainted Galvalume,
45yr. SMP, PVDF

PBC

Designed for commercial, industrial, residential, and steel-framed building applications, the PBC Panel provides architects and designers a corrugated profile option which can be installed as both a roof and a wall panel. The PBC height creates the structural integrity required to allow installation over a solid substrate or open framing.

Gauge Options: 26, 24
Finish Options: Unpainted Galvalume,
45yr. SMP, PVDF

FL100

FL100 is a versatile panel that can be used on commercial and residential applications. The panel can be installed in a soffit application or vertically as a wall panel. Venting is available when used as a soffit panel. The interlocking mechanism allows for rapid installation and provides a flush appearance with completely concealed fasteners.

Gauge Options: 26, 24
Finish Options: Unpainted Galvalume,
45yr. SMP, PVDF

PBU

PBU Panel is a 36" wide exposed fastened panel suitable for both vertical and horizontal applications. This versatile corrugated panel can be installed over open framing or a solid substrate, providing endless design possibilities, including: wall, interior liner, soffit, and roof applications.

Gauge Options: 26, 24
Finish Options: Unpainted Galvalume,
PVDF

DOUBLE-LOK®

Double-Lok panels provide proven wind and weather protection under multiple roof loading conditions. Typically installed over open framing, the profile maintains its structural integrity with coverage options of 18" and 24". Mechanically field-seamed with ¼:12 minimum slope.

Gauge Options: 24, 22
Finish Options: Unpainted Galvalume,
45yr. SMP, PVDF
